

Head of School's Message

Graduating class of 2018 and all members of the BCS community, I hope you find images and memories in this book that will keep you coming back to this publication as an encyclopedia of the great year that we shared together. It is a special level of connection that we create living, working and playing on Moulton Hill, and the intensity of the programming, the comprehensive boarding culture and the remarkably broad range of backgrounds and perspectives makes BCS a community unlike any you will ever find. Truly, one of the most lasting benefits of investing so deeply in your school experience are the deep friendships that are forged. You will find, over the years, they are friendships you will be able to revisit and 'pick up' no matter how long it has been since you last connected.

This will be a year that will be fondly remembered, as you took on challenges that many before had not you forged new ground. This is the first year we had a cohort of students successfully completing IB courses and exams. You created both a volleyball and lacrosse team, and both made the playoffs, while lacrosse went on to win the league championship. Prefects introduced us to 'silly Mondays,' which became a beautifully corny way to start the week. The best memories will be your own, so enjoy them whenever you page through this book, and thank you for all you contributed to what was a very special year on Moulton Hill!
